

Nicotine

Summary

asdf

Dr Brian Ardis interview

Summary

- 10 mins into the video - all "long covid" symptoms improve within minutes to days by using a 7mg nicotine patch for 1 week, after a 6 month follow up, there was a 100% fix of their symptoms
 - 21 minutes into the video - every cell of the human body has nicotine receptors, when you use a nicotine patch, it stops other certain proteins from binding to it (alpha 7 nicotine receptors)
 - Cure for alshiermiers, myocarditis
-

Protective role of nutraceuticals against myocarditis (study)
