

# Metrics to enter

## Price

- COMS
- Support / resistance break
- Break through diagonal line
- Patterns
  - Falling / rising wedge
  - Double top / bottom
  - Head & shoulders
  - Ascending / Descending triangle
  - Symmetrical triangle
  - Bull / bear flag
  - Darvis box
- Support / Resistance levels
- Channels

## RSI

- Divergence / Divergence into the low (ensure to analyse after RSI reset)

## Fibs

- Rejecting a zag zone then making a HL is a sign of strength
- Breaking through the 0.618
- Backtest - If the fibs suddenly line up with significant pivot points, you might be at a bottom

## Volume

- Rising volume on the up side
- OBV making a HH (especially on the breakout)

# Sectors / Confluency

- Sector / others confirming
-
